About The Workshop

Ignite effective communication and team synergy with the empowering Team Dynamics and Effective Communication Workshop. We'll leverage PREP Personality Profiles and the Team Dynamic Matrix to...

- Help team members understand their natural communication style
- Reduce miscommunication in the workplace
- Provide tools for effective communication
- Train leaders to focus on managing with support
- Hold leaders and team members accountable for effective communication

How It Works

- Team members will be given an Analysis of their Personal PREP Profile after completing it online.
- Use the PREP Personality Profile to show each team member's communication styles and how to effectively communicate with them.
- Review team members' current stress and energy levels and how to manage those.
- Go over where the team falls on a Team Dynamic Matrix, reviewing the team's strengths and opportunities, how to navigate areas of opportunity, and how to be more effective as a team.
- Engage in team development methodology to better understand how the team works together.
- Conclude with actionable items and goals for utilizing all of this information and staying accountable for using effective communication.
